Glossary

D

Deadline

Deliverable

A deliverable represents a verifiable output of the project. Deliverables are often written reports but can also take another form, for example the completion of a prototype etc.

Demonstration activities

Activities designed to prove the viability of new technologies that offer a potential economic advantage, but which cannot be commercialised directly, e.g. by assembling a prototype.

Direct eligible costs

Direct eligible costs are those which support all the research, management, training and dissemination activities necessary for the conduct of the project, such as: personnel costs, equipment costs, consumables, travel and subsistence costs, publication costs (page charges and related fees for publication of results).

Dissemination

Disclosure of foreground by any appropriate means other than those resulting from the formalities for protecting it, and including the publication of foreground in any medium.
Dissemination can be part of other activities (for example the establishment of a website, the presentation of the project during conferences or workshops, the drafting of a scientific publication including, if applicable, the payment of a fee for its publication).

Domain

The ERC has established a panel structure consisting of 25 panels, grouped in three disciplinary domains, covering the entire spectrum of science, engineering and scholarship in the remit of the ERC: Social Sciences and Humanities (SH), Life Sciences (LS), Physical Sciences and Engineering (PE).

Dual Use and potential for terrorist abuse

- Research having direct military application
- Research having the potential for terrorist abuse
