ERC Synergy Grant Panel 2018

Members of the ERC Peer Review Panels

The list below includes the panel members in the ERC Synergy Grant 2018 peer review process, identified and invited by the ERC Scientific Council. The configuration of panels changed in the course of the evaluation, in accordance with the procedures laid out in the ERC Work Programme 2018.

A single submission of the full proposal was followed by a three-step evaluation, including interviews. The structure and membership of the panels at each step was not predefined but was decided dynamically in relation to the proposals received. The single step 1 panel was formed from approximately 80 panel members and five chairs. Five step 2 panels were formed after the step 1 filtering to ensure the best expertise for a group of proposals. The step 3 configuration remained the same as in step 2. The five step 2 and step 3 panels were composed using the step 1 panel members, grouping them into panels of around 17 experts each. Due to the dynamic panel formation and interdisciplinary nature of the evaluation the panel members are listed in alphabetical order with mention of the chairs.

Note to applicants:

This information is given for reasons of transparency. Under no circumstances should peer reviewers be contacted by applicants, potential applicants or potential host institutions.
