

## **ERC Advanced Grants 2023**

### **List of Principal Investigators invited for funding from the reserve list**

#### **All domains**

The final list of successful candidates is provisional. The Trade and Cooperation Agreement between the European Union and the United Kingdom allows for associating the UK to the current EU research and innovation funding programme, Horizon Europe, subject to the adoption of a Protocol. As this Protocol has not been adopted so far, the UK is still considered "non-associated" to Horizon Europe for the above-mentioned call. Therefore, the successful proposals of applicants based in a country in the process of associating to Horizon Europe will be eligible for funding only if the relevant Horizon Europe association agreement applies by the time of the signature of the grant agreement. However, successful applicants from UK host institutions can still be funded, provided that they move to a host institution in an eligible country.

Last name	First name	Host Institution Local name	Host Institution name	Host country	Acronym	Title	Panel
Maffei	Matteo	Technische Universität Wien	Vienna University of Technology	AT	BlockSec	Formal Methods for Secure Blockchain-Oriented Programming	PE6
Doerner	Reinhard	Johann Wolfgang Goethe Universität Frankfurt am Main	Goethe University Frankfurt am Main	DE	Timing-FreePhase	Phase, time and correlations in free electron wave packets	PE2
Fraser	Alex	Ludwig-Maximilians-Universität München	University of Munich (LMU)	DE	EPICAL	Evaluating and Programming Intelligent Chatbots for Any Language	PE6
Haak	Wolfgang	Max-Planck-Gesellschaft zur Förderung der Wissenschaften e.V.	Max Planck Society	DE	ROAMANCE	Roaming Ancestry – Landscapes of social and genetic relations in prehistory	SH6
Hertweck	Christian	Leibniz-Institut für Naturstoff-Forschung und Infektionsbiologie Ev Hans-Knöll-Institut	Leibniz Institute for Natural Product Research and Infection Biology	DE	AnoxyGen	Harnessing Specialized Metabolism from Anaerobes	LS9
Isermann	Berend	Universität Leipzig	Leipzig University	DE	TameThiflam	Targeting mechanisms of Thrombo-inflammation	LS7
Ulrich	Helle	Institut für Molekulare Biologie gGmbH	Institute of Molecular Biology	DE	UBICODEWRITES	(Re-)Writing the Ubiquitin Code – Manipulating Polyubiquitin Chain Linkage to Investigate Ubiquitin Signalling in Genome Maintenance and Beyond	LS1
Vallier	Ludovic	Charité - Universitätsmedizin Berlin	Charité - University Hospital	DE	FunChol	Function of Cholangiocytes in chronic liver diseases	LS7
