Notice regarding ERC calls for proposals (2014)

The next ERC Work Programme and calls (2014), which are usually due to be published in 2013, will be the first ones under the new EU Research Framework Programme 'Horizon 2020' (2014-2020).

However, the negotiations on this future programme are still on-going, which is why the **publication dates of both the next ERC Work Programme and ERC calls may be different from the usual calendar.**

Once the 'Horizon 2020' programme has been adopted, more information on the calendar of the "2014 ERC calls" will be provided.

Stay informed on the [ERC website](#) and the [Participant Portal](#).
