

## **ERC Starting Grants 2025**

### **List of Principal Investigators selected for funding**

*The statistics and final list of successful candidates are provisional. The European Commission and the Swiss Government have successfully concluded negotiations on the association of Switzerland to Horizon Europe and the signature of the agreement is expected to take place in 2025. If the association agreement has not yet come into force by the date of the signature of the grant agreement, applicants with Swiss host institutions will not be eligible to receive funding. In that case, if the signature of the association agreement is not imminent, the applicants will be given the possibility to transfer their proposal to an eligible host institution in an EU Member State or in an Associated country.*
